Chord and Pentatonic Chart Pack

Your 30-Day Chords-to-First-Solo Plan. Play real chords and improvise your first solo in 30 days.

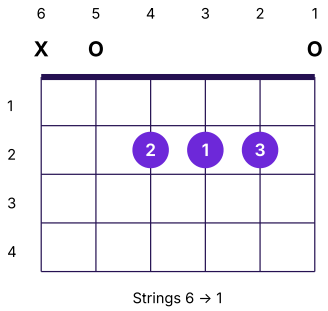

Read each chord as if the guitar faces you upright: strings 6 to 1 run left to right, the thick top line is the nut and frets run downward. X = keep the string silent. O = play it open. Numbers in the dots are fingers: 1 index, 2 middle, 3 ring, 4 pinky.

Week 3 · Box One: A minor pentatonic

Strings 6 → 1 · frets 5–8 run downward

Five notes, A C D E G, two on every string. The filled dots are A, the root: string 6 fret 5, string 4 fret 7, string 1 fret 5. Land a phrase on any of them and it sounds finished.

The route up, low string to high, one note per click at 60 BPM with alternate picking. Then play the same notes back down.

```
e|--------------------------------5--8--|
B|-------------------------5--8--------|
G|-------------------5--7--------------|
D|-------------5--7---------------------|
A|-------5--7---------------------------|
E|-5--8---------------------------------|
```

Week 4 · First Solo: the A blues form

One chord per bar, four beats in every bar, in 4/4:

- **Bars 1–4:** Bar 1 A7; bar 2 A7; bar 3 A7; bar 4 A7. Say each bar number on its first beat, then count 2, 3, 4.
- **Bars 5–8:** Bar 5 D7; bar 6 D7; bar 7 A7; bar 8 A7. Keep four beats in every bar, even when the same chord repeats.
- **Bars 9–12:** Bar 9 E7; bar 10 D7; bar 11 A7; bar 12 E7. The E7 at bar 12 leads to A7 at bar 1 of the next chorus.

Improvise four-bar phrases over an A blues and land each phrase on the root. Play a short phrase from box one, leave space, then answer it. Four bars is one musical sentence.
